

Who we are:

Krystal Biotech, Inc. is using gene therapy to develop effective and novel treatments for skin diseases. Our goal is to make a meaningful difference in the lives of underserved patient populations with debilitating skin diseases. We work to accomplish that through scientific innovation, operational excellence and believe that “nature operates in the shortest way possible”. (Aristotle)

Our vision:

We strive to be the leader in the development of novel and proprietary “off the shelf” gene therapy products to fight some of the world’s most serious skin diseases.

Our mission:

To develop transformative, innovative, and science-based HSV gene therapy products and processes to dramatically improve people lives.

Job Description Summary:

Krystal Biotech, Inc. is seeking a highly motivated Vice President of Medical Affairs to lead the build out of our medical affairs organization to support candidates in our pipeline, with an initial focus on B-VEC for treatment of dystrophic epidermolysis bullosa, a rare skin condition with no treatment options available. The Vice President of Medical Affairs will ensure strategic and operational excellence of the Medical Affairs function. This individual must be passionate, collaborative, creative, willing to take prudent risks, and motivated by the creation of a company focused on transformative treatments for patients and their families.

Specific responsibilities include but are not limited to:

- Build the global Medical Affairs function
- Develop the medical strategy for products in development which identify and integrate the unmet needs and perspectives of healthcare providers, payors, patients, and caregivers
- Develop and execute the scientific communications plan, including evidence generation to support strategic objectives (RWE, HEOR, Phase IV and IIT) as well as scientific information exchange with all key stakeholders (congress strategy, KOL strategy/plans, etc.)
- Oversee medical review of all scientific and promotional pieces, as part of the promotional review board process
- Lead patient identification initiatives
- Assist with recruitment for ongoing clinical trials, as needed
- Perform and/or assist in presentations to payors
- Oversee the Medical Affairs budget
- Provide support as needed for special projects, including assessment of business development opportunities and life-cycle management

The ideal candidate is/has:

- Advanced degree (MD, PhD, PharmD) with 8+ years of experience in Medical Affairs. MD background strongly preferred

- Highly collaborative individual who is hands on and able to function in an entrepreneurial, high paced environment
- Has proven experience in managing key functions within medical affairs (e.g., medical strategy, MSL team, publications, medical information, grants). Minimum of 5 years of managing and leading post-commercial medical teams
- Strong written and verbal communication skills, and ability to articulate complex scientific and medical information in understandable business terms.
- Ability to teach and mentor others in the Medical Affairs team
- Ability to establish collaborative, compliant work relationships with counterparts within the organization
- Travel required - up to 25%.

All interested applicants are required to submit their CV/Resume and Cover Letter to jsuskin@krystalbio.com. Please note, applications submitted without resumes and cover letter will not be accepted.
